The entity has elected to apply PBE SFR-A (NFP) Public Benefit Entity Simple Format Reporting – Accrual (Not-For-Profit) on the basis that it does not have public accountability and has total annual expenses equal to or less than \$2,000,000. All transactions in the Performance Report are reported using the accrual basis of accounting. The Performance Report is prepared under the assumption that the entity will continue to operate in the foreseeable future.

#### Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable for the sale of goods and services or expected membership subscription, excluding goods and services tax rebates and discounts, to the extent that the economic benefits will flow to the entity and revenue can be reliably measured.

Interest received is recognised as interest is paid.

### Property, Plant and Equipment

Property plant and equipment and investment property are stated at historical cost less any accumulated depreciation and impairment losses. Historical cost includes expenditure directly attributable to the acquisition of assets and includes the cost of replacements that are eligible for capitalization when these are incurred.

An item of property, plant and equipment or investment property is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognised.
